## MAIN TOPICS

### Objectives

It is an effort to engage the academic communities, gov-  
ernments, and industries in promoting knowledge-  
based economy and university Padang Institute of  
Technology, annually presents the 1st International  
Conference on Technology, Innovation and Society  
(ICTIS) with a successfully facing the global competi-  
tion with similar theme for several periods, we  
expand the event to broad participants and attendees  
from various disciplines and countries. Our main goal  
is to reflect the processes of knowledge and technol-  
ogy utilization in countries and good base for  
universities, research, education and regulation from  
policy makers, and practitioners from the world of busi-  
ness. According to its name, the ICTIS aims to discuss  
and evaluate the three pillars of knowledge valoriza-  
tion consisting of technology, innovation, and society.  
First, universities and other research institutes are the  
main players that play a main role in producing  
(applied) research of technology in which in the dis-  
cussions about technology, innovation and its issues.  
Second, we seek to how innovations are being fos-  
tered, both by policy makers and by the private indus-  
try. So, between universities and the industrial sector.  
The last part, we expect to discuss how the society, in-  
cluding Micro, Small and Medium Enterprises  
(MSME), Large and Multinational Enterprises, NGOs,  
and etc. perceive knowledge valorization. With its  
broad topics and participants, we look at the diver-  
sity in topics and we also expect the knowledge shar-  
ing among participants.
